- (3) *Variation of the Terms and Conditions of the Securities:* If at any time a MREL Disqualification Event occurs, and/or in order to ensure or maintain the effectiveness and enforceability of § 11 of the General Conditions, the Issuer may, without any consent or approval of the Security Holders, at any time vary the Terms and Conditions of the Securities in such a way that the Securities remain or, as appropriate, become, Qualifying Securities (the "**Variation**"). However, the Variation may not itself give rise to any right of the Issuer to redeem the varied Securities. The Issuer shall give not less than 30 nor more than 60 days' prior notice of the Variation to the Paying Agent and the Securities Holders in accordance with § 6 of the General Conditions (the "**Variation Notice**"). - (4) For avoidance of doubt, any Variation pursuant to § 9 (3) of the General Conditions is subject to compliance by the Issuer with any conditions prescribed by the MREL Requirements at the relevant time, including, as relevant, the condition that the Issuer has obtained the prior permission of the Relevant Resolution Authority.

or other ongoing payments payable to reflect the reduction of the redemption amount payable, and any further modification of the Terms and Conditions of the Securities that the Relevant Resolution Authority may decide in accordance with applicable laws and regulations relating to the resolution of the Issuer and/or entities of the Group incorporated in the relevant Member State.

What are the key risks that are specific to the Issuer?

Potential investors should be aware that in the case of the occurrence of one of the below mentioned risk factors the Securities may decline in value and that they may sustain a total loss of their investment. The following risks are key risks specific to the Issuer:

Risks associated with the impact of current macroeconomic uncertainties and the effects of the COVID-19 pandemic outbreak: The financial markets and the macroeconomic and political environment of the countries in which UniCredit operates were impacted by the viral pneumonia known as "Coronavirus" ("COVID-19") outbreak and this has had and could continue to have a negative impact on the performance of the Group. Moreover, the valuation of certain assets has become complex and uncertain as a result of the lockdown measures and other restrictive measures put in place by governments for the containment of COVID 19 pandemic. Expectations regarding the performance of the global economy remain still uncertain in both the short and medium term, also considering the recent geopolitical tensions with Russia. The macroeconomic context in which the Group functioned in 2021 was characterized by the encouraging signs of recovery compared with the prior year, supported by the governmental measures sustaining the economy, by vaccination campaigns and by the progressive slowing-down of the lockdown measures. The current environment continues to be characterized by highly uncertain elements, such as geopolitical tensions with Russia, with the possibility that the slowdown of the economy could generate a worsening of the loan portfolio quality, followed by an increase of the non-performing loans and the necessity to increase the provisions to be charged to the income statement. On 9 December 2021 UniCredit presented to the financial community its new Strategic Plan, which included a set of strategic and financial objectives that considered the underlying scenario and resulted from the assessment performed in the previous months. The macro assumptions underlying the Strategic Plan exclude (Macro assumptions consider the recent and still existing impacts of COVID with a gradual normalisation over the upcoming years. The scenario does not assume that the current COVID situation will develop in a particularly negative way in the upcoming years) unexpected materially adverse developments such as the worsening of the COVID-19 pandemic, a situation that UniCredit is monitoring closely. The evaluations processes, such as Deferred Tax Assets, whose recoverable amount depends on cash flows projections, might be subject to a change not foreseeable at the moment and from which could derive possible negative effects, including significant ones, on the bank's financial and economic situation.

Risks connected with the Strategic Plan 2022 – 2024: On 9th December 2021, UniCredit presented to the financial community in Milan the 2022-2024 Strategic Plan called "UniCredit Unlocked" (the "Strategic Plan" or "Plan") which contains a number of strategic, capital and financial objectives (the "Strategic Objectives"). "UniCredit Unlocked" delivers strategic imperatives and financial ambitions based on six pillars. Such strategic imperatives and financial ambitions regard: (i) the growth in its regions and the development of its client franchise, changing its business model and how its people

operate; (ii) the delivery of economies of scale from its footprint of banks, transforming the technology leveraging Digital & Data and embedding sustainability in all that UniCredit does; (iii) driving financial performance via three interconnecting levers mentioned above. UniCredit's ability to meet the strategic objectives and all forward-looking statements relies on a number of assumptions, expectations, projections and provisional data concerning future events and is subject to a number of uncertainties and other factors, many of which are outside the control of UniCredit. Macro assumptions exclude (Macro assumptions consider the recent and still existing impacts of COVID with a gradual normalisation over the upcoming years. The scenario does not assume that the current COVID situation will develop in a particularly negative way in the upcoming years) unexpected materially adverse developments such as the worsening of the COVID-19 pandemic, a situation that UniCredit is monitoring closely. The six pillars are: (i) optimise, through the improvement of operational and capital efficiency; (ii) invest, with targeted growth initiatives, including ESG; (iii) grow net revenues; (iv) return; (v) strengthen thanks to revised CET1 ratio target and decrease of Gross NPE ratio; and (vi) distribute consistently with organic capital generation. For all these reasons, investors are cautioned against making their investment decisions based exclusively on the forecast data included in the strategic objectives. Any failure to implement the strategic objective or meet the strategic objectives may have a material adverse effect on UniCredit's business, financial condition or results of operations.

Credit risk and risk of credit quality deterioration: The activity, financial and capital strength and profitability of the UniCredit Group depend, among other things, on the creditworthiness of its customers. In carrying out its credit activities, the Group is exposed to the risk that an unexpected change in the creditworthiness of a counterparty may generate a corresponding change in the value of the associated credit exposure and give rise to the partial or total write-down thereof. The current environment continues to be characterised by highly uncertain elements, with the possibility that the slowdown of the economy, jointly with the termination of the safeguard measures, such as the customer loans moratorium, generates a worsening of the loan portfolio quality, followed by an increase of the non-performing loans and the necessity to increase the provisions to be charged in the income statement. UniCredit's Loan Loss Provisions ("LLPs") decreased by Euro 3,362 million to Euro 1,634 million as at 31 December 2021 from Euro 4,996 million as at 31 December 2020. Therefore, the cost of risk in the 2021 was 37 bps, decreased compared to the past year (105 bps). As at 31 December 2021, Group gross NPE ratio was equal to 3.6 per cent, decreasing compared to 30 September 2021 in which the gross NPE ratio was equal to 4.5%. As at 31 December 2021 Group Net NPE ratio decreasing compared to 30 September 2021 and is equal to 1.7%. In the context of credit activities, this risk involves, among other things, the possibility that the Group's contractual counterparties may not fulfil their payment obligations, as well as the possibility that Group companies may, based on incomplete, untrue or incorrect information, grant credit that otherwise would not have been granted or that would have been granted under different conditions. Other banking activities, besides the traditional lending and deposit activities, can also expose the Group to credit risks. "Non-traditional" credit risk can, for example, arise from: (i) entering derivative contracts; (ii) buying and selling securities currencies or goods; and (iii) holding third-party securities. The counterparties of said transactions or the issuers of securities held by Group entities could fail to comply due to insolvency, political or economic events, a lack of liquidity, operating deficiencies, or other reasons. The Group has adopted procedures, rules and principles aimed at monitoring and managing credit risk at both individual counterparty and portfolio level. However, there is the risk that, despite these credit risk monitoring and management activities, the Group's credit exposure may exceed predetermined risk's levels pursuant to the procedures, rules and principles it has adopted.

Liquidity Risk: The main indicators used by the UniCredit Group to assess its liquidity profile are (i) the Liquidity Coverage Ratio (LCR), which represents an indicator of short-term liquidity subject to a minimum regulatory requirement of 100% from 2018 and which was equal to 182% in December 2021, whereas at 31 December 2020 was equal to 171% (calculated as the average of the 12 latest end of month ratios), and (ii) the Net Stable Funding Ratio (NSFR), which represents the indicator of structural liquidity and which in December 2021 was above the internal limit set at 102%, whereas at 31 December 2020 was above the internal limit set at 101% within the risk appetite framework. Liquidity risk refers to the possibility that the UniCredit Group may find itself unable to meet its current and future, anticipated and unforeseen cash payment and delivery obligations without impairing its day-to-day operations or financial position. The activity of the UniCredit Group is subject in particular to funding liquidity risk, market liquidity risk, mismatch risk and contingency risk. The most relevant risks that the Group may face are: i) an exceptionally high usage of the committed and uncommitted lines granted to corporate customers; ii) an unusual withdrawal of sight deposits by UniCredit's retail and corporate customers; iii) the decline in the market value of the securities in which UniCredit invests its liquidity buffer; iv) the capacity to roll over the expiring wholesale funding and the potential cash or collateral outflows the Group may suffer in case of rating downgrades of both the banks or the sovereign debt in the geographies in which it operates. In addition to this, some risks may arise from the limitations applied to the cross-border lending among banks. Due to the financial market crisis, followed also by the reduced liquidity available to operators in the sector, the ECB has implemented important interventions in monetary policy, such as the "Targeted Longer-Term Refinancing Operation" ("TLTRO") introduced in 2014 and the TLTRO II introduced in 2016. It is not possible to predict the duration and the amounts with which these liquidity support operations can be repeated in the future, with the result that it is not possible to exclude a reduction or even the cancellation of this support. This would result in the need for banks to seek alternative sources of borrowing, without ruling out the difficulties of obtaining such alternative funding as well as the risk that the related costs could be higher. Such a situation could therefore adversely affect UniCredit's business, operating results and the economic and financial position of UniCredit and/or the Group.

Basel III and Bank Capital Adequacy: The Issuer shall comply with the revised global regulatory standards ("Basel III") on bank capital adequacy and liquidity, which impose requirements for, inter alia, higher and better-quality capital, better risk coverage, measures to promote the build-up of capital that can be drawn down in periods of stress and the introduction of a leverage ratio as a backstop to the risk-based requirement as well as two global liquidity standards. In terms of banking prudential regulations, the Issuer is also subject to the Bank Recovery and Resolution Directive 2014/59/EU of 15 May 2014 ("BRRD"), implemented in Italy with the Legislative Decree. 180 and 181 of 16 November 2015 - as amended by the Directive (EU) 2019/879, the "BRRDII" (implemented in Italy by the Legislative Decree No. 193 of November 8, 2021) on the recovery and resolution of credit institutions, as well as the relevant technical standards and guidelines from EU regulatory bodies (i.e. the European Banking Authority (EBA)), which, inter alia, provide for capital/ Minimum Requirement for Own Funds and Eligible Liabilities (MREL) requirements for credit institutions, recovery and resolution mechanisms. Should UniCredit not be able to meet the capital/MREL requirements imposed by the applicable laws and regulations, it may be required to maintain higher levels of capital which could potentially impact its credit ratings, and funding conditions and which could limit UniCredit's growth opportunities.

Conversion of the Securities by the Issuer: Upon the occurrence of one or more conversion events (e.g. the calculation of the Index is discontinued and no suitable Replacement Underlying is available) (the "**Conversion Event**") the Issuer may convert the Securities and redeem them on the Final Payment Date by payment of the Settlement Amount. The "**Settlement Amount**" is the market value of the Securities, with accrued interest for the period until the Final Payment Date at the market rate of interest being traded at such time for liabilities of the Issuer with the same remaining term as the Securities within ten Banking Days following the occurrence of the Conversion Event, as determined by the Calculation Agent. The Settlement Amount is in any case not less than the Minimum Amount.

Early redemption at the option of the Issuer: The Securities may be redeemed at any time in whole but not in part, at the option of the Issuer at their Optional Redemption Amount on or after the date specified in a notice published on the Issuer's website on giving notice to the Paying Agent and the Security Holders, if the Issuer determines that all or part of the outstanding nominal amount of Securities is or will be excluded fully or partially from the eligible liabilities available to meet the MREL Requirements (MREL Disqualification Event).

Adjustments to the Terms and Conditions: The Calculation Agent may adjust the Terms and Conditions of the Securities (in particular the relevant Underlying and/or all prices of the Underlying which have been specified by the Calculation Agent) if an adjustment event (e.g. a change to the relevant Index Concept (for example, a change in the composition of the Index not previously anticipated or changes to an index component that affects the

ability of the Issuer to hedge its obligations under the Securities)) (the "**Adjustment Event**") occurs.

Listing: Application to trading will be made with effect from 29 June 2022 on the following multilateral trading facilities (MTF): Frankfurt Stock Exchange (Open Market)

What are the key risks that are specific to the Securities?

Credit risk of the Issuer and risks in relation to resolution measures in relation to the Issuer: The Securities constitute unsecured obligations of the Issuer vis-a-vis the Security Holders. Any person who purchases the Securities therefore relies on the creditworthiness of the Issuer and has, in relation to his/her position under the Securities, no rights or claims against any other person. Security Holders are subject to the risk of a partial or total failure of the Issuer to fulfil obligations which the Issuer is liable to perform under the Securities in whole or in part, for example, in the event of the Issuer's insolvency. The worse the creditworthiness of the Issuer is the higher is the risk of a loss. In the case of realization of the credit risk of the Issuer the Security Holder may sustain a total loss of his/her capital, even if the Securities provide for a Minimum Amount at their maturity. Moreover, Security Holders may become subject to resolution measures in relation to the Issuer if the Issuer is failing or likely to fail. The obligations of the Issuer under the Securities are not secured, guaranteed by third parties or protected by any deposit protection or compensation scheme.

Risks related to market value-influencing factors: The market value of the Securities as well as the amounts distributable under the Securities primarily depend on the price of the Underlying. However, the market value of the Securities will be affected by a number of additional factors. These are inter alia the creditworthiness of the Issuer, the relevant prevailing interest and yield rates, the market for similar securities, the general economic, political and cyclical conditions, the tradability and, if applicable, the remaining term of the Securities as well as additional Underlying-related market value-influencing factors.

Risks related to the Redemption Amount: The Securities will be redeemed at their maturity at the Redemption Amount. The Redemption Amount may be less than the Issue Price or the purchase price. This means, the Security Holder only achieves a return if the Redemption Amount exceeds the individual purchase price of the Security Holder. Potential return from the Securities is limited in contrast to a direct investment in the Underlying.

Risks arising from missing ongoing payments: The Securities, do not bear interest or grant any other conditional or unconditional rights for ongoing payments which could compensate possible losses of principal.

Risks related to the regulation of benchmarks: The Securities make reference to a Benchmark (the "**Benchmark**") within the meaning of Regulation (EU) 2016/1011 (the "**Benchmark Regulation**") and therefore there is a risk that the Benchmark may not be used as reference value of the Securities from a certain point in time. In such event, the Securities could be de-listed, adjusted, converted or otherwise impacted. Any changes to a Benchmark as a result of the Benchmark Regulation could have a material adverse effect on the costs of refinancing a Benchmark or the costs and risks of administering or otherwise participating in the setting of a Benchmark and complying with the Benchmark Regulation. Potential investors should be aware that they face the risk that any changes to the relevant Benchmark may have a material adverse effect on the value of and the amount payable under the Securities.

Risks related to indices: The performance of Securities linked to indices depends on the performance of the respective index. Changes in the price of the components of the index and changes to the composition of the index or other factors may have an adverse effect on the performance of the index.

Risks related to potential conflicts of interests: Conflicts of interest in relation to the relevant Issuer or the persons entrusted with the offer may arise, which may result in a decision to the Security Holder's disadvantage.

Liquidity risk: There is a risk that the Securities may not be widely distributed and no active trading market may exist and may develop for the Securities. The Issuer may, but is not obliged to, purchase Securities at any time and at any price in the open market, by tender offer or private agreement. Any Securities purchased in this way by the Issuer may be held, resold or cancelled. A repurchase of Securities by the Issuer may adversely affect the liquidity of the Securities. The Issuer cannot therefore assure that a Security Holder will be able to sell his Securities at an adequate price prior to their redemption.

Koji su ključni rizici specifični za izdavatelja?

Potencijalni ulagači trebaju biti svjesni da u slučaju pojave jednog od dolje navedenih čimbenika rizika Vrijednosnim papirima može pasti vrijednosti te da mogu pretrpjeti potpuni gubitak svog ulaganja.

Sljedeći rizici su ključni rizici specifični za Izdavatelja:

Rizici povezani s utjecajem trenutnih makroekonomskih neizvjesnosti i učincima izbijanja pandemije COVID-19:

Financijska tržišta te makroekonomske i političko okruženje zemalja u kojima posluje UniCredit bilo je pogođeno izbijanjem virusne upale pluća poznatom pod imenom "Coronavirus" ("COVID-19") te je to imalo i moglo bi nastaviti imati negativni učinak na uspjeh Grupe. Štoviše, procjena određene imovine postala je kompleksna i neizvjesna kao rezultat mjera zatvaranja i drugih ograničavajućih mjera donesenih od strane vlada kako bi se spriječilo širenje pandemije COVID-19. Očekivanja u pogledu performansi globalnog gospodarstva i dalje ostaju neizvjesna i kratkoročno i srednjoročno, uzevši u obzir i nedavne geopolitičke tenzije s Rusijom. Makroekonomski kontekst u kojem je Grupa funkcionirala u 2021. karakteriziran je poticajnim znakovima oporavka u odnosu na prethodnu godinu, podržan vladinim mjerama održavanja gospodarstva, kampanjama za cijepljenje i progresivnim ublažavanjem mjera zatvaranja. Sadašnje okruženje i dalje karakteriziraju izrazito neizvjesni elementi, poput geopolitičkih tenzija s Rusijom, s mogućnošću da bi usporavanje gospodarstva moglo generirati pogoršanje kvalitete kreditnog portfelja, nakon čega slijedi povećanje nenaplativih kredita i nužnost povećanja rezervacija na teret računa dobiti i gubitka. Na dan 9. prosinca 2021. UniCredit je financijskoj zajednici predstavio svoj novi Strateški plan, koji je uključivao niz strateških i financijskih ciljeva koji su u obzir uzeli odnosni scenarij i proizašli su iz procjene provedene u prethodnim mjesecima. Makro pretpostavke na kojima se temelji Strateški plan isključuju (Makro pretpostavke uzimaju u obzir nedavne i još uvijek postojeće učinke COVID-a s postupnom normalizacijom tijekom nadolazećih godina. Scenarij ne pretpostavlja da će se trenutna situacija s COVID-om u nadolazećim godinama razvijati na posebno negativan način) neočekivane materijalno nepovoljne događaje poput pogoršanja pandemije COVID-19, situacije koju UniCredit pomno prati. Procesi ocjenjivanja poput Odgođene porezne imovine, čija nadoknativa vrijednost ovisi o projekcijama novčanih tokova, mogla bi biti podložna promjeni koja se u ovom trenutku ne može predvidjeti i iz koje bi mogli proizaći mogući negativni učinci, uključujući i oni značajni, na financijsko i ekonomsko stanje banke.

Rizici povezani sa Strateškim planom 2022-2024.: Dana 9. prosinca 2021. UniCredit je financijskoj zajednici u Milanu predstavio Strateški plan za 2022-2024. pod nazivom "UniCredit Unlocked" ("**Strateški plan**" ili "**Plan**") koji sadrži brojne strateške, kapitalne i financijske ciljeve ("**Strateški ciljevi**"). "UniCredit Unlocked" donosi strateške imperativne i financijske ambicije temeljene na šest stupova. Takvi strateški imperativi i financijske ambicije odnose se na: (i) rast u svojim regijama i razvoj franšize klijenata, promjenu poslovnog modela i načina na koji ljudi rade; (ii) ostvarivanje ekonomije razmjera iz svojeg otiska banaka, transformiranje tehnologije koja koristi Digital & Data te ugrađivanje održivosti u sve što UniCredit radi; (iii) poticanje financijskog učinka putem tri međusobno povezane poluge gore navedene. Sposobnost UniCredita da ispunji strateške ciljeve i sve izjave o budućnosti oslanja se na niz pretpostavki, očekivanja, projekcija i privremenih podataka u vezi s budućim događajima i podložna je brojnim neizvjesnostima i drugim čimbenicima, od kojih su mnogi izvan kontrole UniCredita. Makro pretpostavke isključuju (Makro pretpostavke uzimaju u obzir nedavne i još uvijek postojeće učinke COVID-a s postupnom normalizacijom tijekom nadolazećih godina. Scenarij ne pretpostavlja da će se trenutna situacija s COVID-om u nadolazećim godinama razvijati na posebno negativan način) neočekivane materijalno nepovoljne događaje poput pogoršanja pandemije COVID-19, situacije koju UniCredit pomno prati. Šest stupova su: (i) optimizirati, kroz poboljšanje operativne i kapitalne učinkovitosti; (ii) ulagati, uz ciljne inicijative rasta, uključujući ESG; (iii) povećati neto prihode; (iv) povratak; (v) ojačati zahvaljujući revidiranoj ciljnoj CET1 stopi i smanjenju bruto omjera NPE; i (vi) distribuirati dosljedno s organskom proizvodnjom kapitala. Iz svih ovih razloga, ulagači se upozoravaju da ne donose svoje odluke o ulaganju isključivo na temelju prognoziranih podataka uključenih u strateške ciljeve. Svaki neuspjeh u provedbi strateških ciljeva ili ispunjenju strateških ciljeva može imati značajno nepovoljan učinak na poslove, financijsko stanje ili rezultate poslovanja UniCredit-a.

Kreditni rizik i rizik pogoršanja kreditne kvalitete: Aktivnost, financijska i kapitalna snaga te profitabilnost UniCredita Grupe ovise, između ostalog, o kreditnoj sposobnosti njenih klijenata. U obavljanju svojih kreditnih aktivnosti Grupa je izložena riziku da neočekivana promjena kreditne sposobnosti druge ugovorne strane može generirati odgovarajuću promjenu vrijednosti povezane kreditne izloženosti i uzrokovati njezino djelomično ili potpuno otpisivanje. Sadašnje okruženje i dalje karakteriziraju izrazito nesigurni elementi, s mogućnošću da usporavanje gospodarstva, zajedno s ukidanjem zaštitnih mjera poput moratorija na kredite klijentima, generira pogoršanje kvalitete kreditnog portfelja nakon čega slijedi povećanje nenaplativih kredita i nužnost povećanja rezervacija na teret računa dobiti i gubitka. UniCredit-ove Rezervacije za gubitke po kreditima ("**LLP**") smanjile su se za 3.362 milijuna eura na 1.634 milijuna eura na dan 31. prosinca 2021. s iznosa od 4.996 milijuna eura na dan 31. prosinca 2020. Prema tome, trošak rizika u 2021. je bio 37 bps-a što je smanjeno u odnosu na prošlu godinu (105 bps). Na dan 31. prosinca 2021. omjer bruto NPE-a Grupe bio je jednak 3,6%, što je smanjenje u usporedbi s 30. rujnom 2021. u kojem je omjer bruto NPE-a bio 4,5%. Na dan 31. prosinca 2021. omjer neto NPE-a Grupe smanjio se u odnosu na 30. rujna 2021. i jednak je 1,7%. U kontekstu kreditnih aktivnosti, ovaj rizik uključuje, između ostalog, mogućnost da ugovorne strane Grupe ne ispune svoje obveze plaćanja, kao i mogućnost da društva Grupe, na temelju nepotpunih, neistinitih ili netočnih informacija, odobre kredite koji inače ne bi bili odobreni ili koji bi bili odobreni pod drugačijim uvjetima. Druge bankovne aktivnosti, osim tradicionalnih davanja kredita i primanja depozita, također mogu izložiti Grupu kreditnim rizicima. "Netradicionalni" kreditni rizik može, na primjer, nastati: (i) sklapanjem ugovora o izvedenicama; (ii) kupnjom i prodajom vrijednosnih papira, valuta ili robe; i (iii) držanjem vrijednosnih papira treće strane. Ugovorne strane u navedenim transakcijama ili izdavatelji vrijednosnih papira koje drže subjekti Grupe mogli bi ne poštovati svoje obveze zbog insolventnosti, političkih ili ekonomskih događaja, nedostatka likvidnosti, operativnih nedostataka ili drugih razloga. Grupa je usvojila procedure, pravila i načela usmjerena na praćenje i upravljanje kreditnim rizikom na obje razine – na razini pojedinačne ugovorne strane i na razini portfelja. Međutim, postoji rizik da, unatoč tim aktivnostima praćenja i upravljanja kreditnim rizikom, kreditna izloženost Grupe može premašiti unaprijed određene razine rizika u skladu s postupcima, pravilima i načelima koje je usvojila.

Rizik likvidnosti: Glavni pokazatelji koje UniCredit Grupa koristi za procjenu svog profila likvidnosti su (i) Koeficijent likvidnosne pokrivenosti (LCR), koji predstavlja pokazatelj kratkotrajne likvidnosti podložan minimalnom regulatornom zahtjevu od 100 % od 2018. godine i koji je 182% u prosincu 2021., dok je na dan 31. prosinca 2020. bio 171% (izračunato kao prosjek zadnjih 12 omjera na kraju mjeseca), i (ii) Koeficijenta stabilnih izvora financiranja (NSFR), koji predstavlja pokazatelj strukturne likvidnosti i koji je u prosincu 2021. bio iznad unutarnje granice postavljene na 102%, dok je 31. prosinca 2020. bio iznad unutarnje granice postavljene na 101% unutar okvira sklonosti preuzimanja rizika. Rizik likvidnosti odnosi se na mogućnost da se UniCredit Grupa nađe u nemoćnosti ispuniti svoje trenutne i buduće, predviđene i nepredviđene obveze plaćanja i ostale obveze, a da to ne naruši njezino svakodnevno poslovanje ili financijski položaj. Djelatnost UniCredita Grupe podložna je osobito financiranju rizika likvidnosti, rizika tržišne likvidnosti, rizika neusklađenosti i rizika nepredviđenih situacija. Najvažniji rizici s kojima bi se Grupa mogla suočiti su: i) iznimno velika upotreba obvezujućih i neobvezujućih linija odobrenih pravnim osobama; ii) neubičajena povlačenja depozita po viđenju od strane UniCredit-ovih maloprodajnih i poslovnih klijenata; iii) pad tržišne vrijednosti vrijednosnih papira u koje UniCredit ulaže svoj zaštitni sloj likvidnosti; iv) sposobnost produživanja velikih financiranja koja istječu i potencijalnih odljeva novca ili kolaterala koje bi Grupa mogla pretrpjeti u slučaju smanjenja rejtinga i banaka ili državnog duga u zemljopisnim područjima u kojima posluje. Osim toga, neki rizici mogu proizaći iz ograničenja koja se primjenjuju na prekogranično kreditiranje između banaka. Zbog krize na financijskom tržištu, praćene također smanjenom likvidnošću koja je dostupna trgovcima u tom sektoru, ESB je provela važne intervencije u monetarnoj politici poput "Ciljane operacije dugoročnijeg refinanciranja" ("**TLTRO**") uvedene 2014. i TLTRO II uvedene 2016. Nije moguće predvidjeti trajanje i iznose s kojima se ove operacije potpore likvidnosti mogu ponoviti u budućnosti, što rezultira time da nije moguće isključiti smanjenje ili čak otkazivanje ove potpore. To bi rezultiralo potrebom banaka da traže alternativne izvore zaduživanja, bez isključivanja poteškoća u dobivanju takvog alternativnog financiranja, kao i rizika da bi povezani troškovi mogli biti veći. Takva bi situacija stoga mogla negativno utjecati na poslovanje, rezultate poslovanja te gospodarski i financijski položaj UniCredit-a i/li Grupe.

Basel III i Adekvatnost kapitala banke: Izdavatelj će se pridržavati revidiranih globalnih regulatornih standarda ("**Basel III**") o kapitalnoj adekvatnosti i likvidnosti banaka, koji nameću zahtjeve, između ostalog, za viši i kvalitetniji kapital, bolje pokriće rizika, mjere za poticanje nakupljanja kapitala koji se može povući u razdobljima stresa i uvođenje omjera poluge kao zaštitne mreže za zahtjev zasnovanom na riziku, kao i dva globalna standarda likvidnosti. U smislu bankovnih bonitetnih propisa, Izdavatelj je također podložan Direktivi o oporavku i sanaciji banaka 2014/59/EU od 15. svibnja 2014. ("**BRD**"),

koja se u Italiji primjenjuje zakonodavnom uredbom 180. i 181. od 16. studenog 2015. kako je izmijenjena Direktivom 2019/879, "BRRDII" (koja se u Italiji primjenjuje zakonodavnom uredbom 193. od 8. studenog 2021.), kao i relevantnim tehničkim standardima i smjernicama regulatornih tijela EU-a (tj. Europsko bankovno tijelo (EBA)), koji, među ostalim, propisuju kapitalne zahtjeve/minimalne zahtjeve za regulatorni kapital i prihvatljive obveze (MREL) za kreditne institucije, mehanizme oporavka i sanacije. Ako UniCredit ne bude u mogućnosti ispuniti kapitalne/MREL zahtjeve nametnute važećim zakonima i propisima, možda će biti potrebno zadržati više razine kapitala, a što bi potencijalno moglo utjecati na njegove kreditne rejtinge i uvjete financiranja te ograničiti mogućnost rasta UniCredit-a.

Konverzija Vrijednosnih papira od strane Izdavatelja: Nakon pojave jednog ili više događaja konverzije (npr. izračunavanje Indeksa je prekinuto i ne postoji dostupan Zamjenski temeljni instrument) ("Događaj konverzije"), Izdavatelj ima pravo konvertirati i iskupiti Vrijednosne papire na Datum konačne otplate plaćanjem Iznosa namirenja. "Iznos namirenja" je tržišna vrijednost Vrijednosnih papira zajedno s obračunatim kamatama za razdoblje do Datuma konačne otplate po tržišnoj kamatnoj stopi kojom se u to vrijeme trguje obvezama Izdavatelja s istim preostalim rokom kao za Vrijednosne papire u roku deset Bankarskih radnih dana nakon nastanka Događaja konverzije, kako je utvrđeno od strane Agenta za izračun. Iznos namirenja u svakom slučaju nije manji od Minimalnog iznosa.

Prijevremeni iskup po izboru Izdavatelja: Vrijednosni papiri se mogu iskupiti u bilo koje vrijeme u cijelosti, ali ne i djelomično, po izboru Izdavatelja po njihovom Opcijskom iznosu iskupa na dan ili nakon datuma navedenog u obavijesti objavljenoj na web stranici Izdavatelja kojom se informiraju Agent za plaćanje i Imatelji vrijednosnih papira, ukoliko Izdavatelj utvrdi da je cijeli ili dio nepodmirenog nominalnog iznosa Vrijednosnih papira isključen ili će biti u cijelosti ili djelomično isključen iz prihvatljivih obveza dostupnih za ispunjavanje MREL zahtjeva (MREL Događaj diskvalifikacije).

Usklađenje Općih uvjeta: Agent za izračun može uskladiti Opće uvjete Vrijednosnih papira (posebno relevantne Temeljne instrumente i/ili sve cijene Temeljnog instrumenta koje je odredio Agent za izračun) ukoliko dođe do događaja usklađenja (poput promjene u relevantnom Konceptu indeksa (npr. dođe do promjene sastava indeksa koja se ranije nije očekivala ili do promjene komponente indeksa koja utječe na sposobnost Izdavatelja da zaštiti svoje obveze po Vrijednosnim papirima)) ("Događaj usklađenja").

Status Vrijednosnih papira: Obveze Izdavatelja po Vrijednosnim papirima predstavljaju izravne, bezuvjetne, ne-subordinirane i neosigurane obveze Izdavatelja, koje su rangirane (podložno svim obvezama nametnutim bilo kojim mjerodavnim zakonom (također podložno instrumentima sanacije u skladu s talijanskim pravom)) *pari passu* sa svim ostalim neosiguranim sadašnjim i budućim obvezama Izdavatelja (osim obveza koje su s vremena na vrijeme rangirane ispod nadređenih obveznica (uključujući nepovlaštene nadređene obveznice i sve daljnje obveze kojima zakon dopušta da budu rangirane ispod nadređenih obveznica nakon Datuma izdanja), ako ih ima), a u slučaju nadređenih obveznica, međusobno *pari passu* i razmjerno bez ikakvih preferencija među istima.

Koji su ključni rizici specifični za vrijednosne papire?

Kreditni rizik Izdavatelja i rizici u vezi sa sanacijskim mjerama u odnosu na Izdavatelja: Vrijednosni papiri predstavljaju neosigurane obveze Izdavatelja prema Imateljima vrijednosnih papira. Stoga se svaka osoba koja kupuje Vrijednosne papire oslanja na kreditnu sposobnost Izdavatelja i nema, u odnosu na svoj položaj vezanim uz Vrijednosne papire, nikakva prava niti potraživanja prema bilo kojoj drugoj osobi. Imatelji vrijednosnih papira izloženi su riziku djelomičnog ili potpunog propusta Izdavatelja da ispunji obveze koje je Izdavatelj dužan u cijelosti ili djelomično izvršiti temeljem Vrijednosnih papira, na primjer, u slučaju nesolventnosti Izdavatelja. Što je kreditna sposobnost Izdavatelja lošija, to je veći rizik gubitka. U slučaju ostvarivanja kreditnog rizika Izdavatelja, Imatelj vrijednosnih papira može pretrpjeti potpuni gubitak svog kapitala, čak i ako Vrijednosni papiri predviđaju Minimalni iznos po dospijecu. Štoviše, Imatelji vrijednosnih papira mogu postati podložni mjerama sanacije u odnosu na Izdavatelja ako Izdavatelj propada ili je vjerojatno da će propasti. Obveze Izdavatelja temeljem Vrijednosnih papira nisu osigurane, ni zajamčene od trećih strana niti zaštićene bilo kakvim programom zaštite depozita ili shemama kompenzacije.

Rizici povezani s čimbenicima koji utječu na tržišnu vrijednost: Tržišna vrijednost Vrijednosnih papira, kao i iznosi raspodjeljivi temeljem Vrijednosnih papira prvenstveno ovise o cijeni Temeljnih instrumenata. Međutim, na tržišnu vrijednost Vrijednosnih papira utjecat će brojni dodatni čimbenici. To su, između ostalog, kreditna sposobnost Izdavatelja, relevantne prevladavajuće kamatne stope i stope prinosa, tržište sličnih vrijednosnih papira, opći ekonomski, politički i ciklični uvjeti, mogućnost trgovanja i, ako je primjenjivo, preostali rok Vrijednosnih papira, kao i dodatni čimbenici vezani uz Temeljni instrument koji utječu na tržišnu vrijednost.

Rizici povezani s Iznosom iskupa: Vrijednosni papiri će se iskupiti na dan njihova dospijeca po Iznosu iskupa. Iznos iskupa može biti manji od Cijene Izdavanja ili kupovne cijene. To znači da Imatelj vrijednosnog papira ostvaruje povrat samo ako Iznos iskupa premaši pojedinačnu kupovnu cijenu od Imatelja vrijednosnog papira. Potencijalni povrat od Vrijednosnih papira ograničen je za razliku od izravnog ulaganja u Temeljni instrument.

Rizici koji proizlaze iz neimanja stalnih isplata: Vrijednosni papiri ne nose kamate niti daju bilo koja druga uvjetna ili bezuvjetna prava na stalne isplate koje bi mogle nadoknaditi moguće gubitke glavnice.

Rizici povezani s regulativom referentnih vrijednosti: Vrijednosni papiri upućuju na Referentnu vrijednost ("Referentna vrijednost") u smislu Uredbe (EU) 2016/1011 ("Uredba o referentnim vrijednostima"), pa stoga postoji rizik da se Referentna vrijednost ne može koristiti kao referentna vrijednost Vrijednosnih papira u određenom trenutku. U tom slučaju Vrijednosni papiri bi mogli biti delistani, korigirani, konvertirani ili na drugi način zahvaćeni. Sve promjene Referentne vrijednosti kao rezultat Uredbe o referentnim vrijednostima mogle bi imati značajan negativan učinak na troškove refinanciranja Referentne vrijednosti ili na troškove i rizike administriranja ili sudjelovanja na drugi način u postavljanju Referentne vrijednosti i usklađivanja s Uredbom o referentnim vrijednostima. Potencijalni ulagači trebaju biti svjesni da se suočavaju s rizikom da bi bilo koja promjena relevantne Referentne vrijednosti mogla imati značajan negativan učinak na vrijednost i plativu iznos po Vrijednosnim papirima.

Rizici povezani s indeksima: Učinak Vrijednosnih papira povezanih s indeksima ovisi o učinku odgovarajućeg indeksa. Promjene u cijeni komponenti indeksa i promjene u sastavu indeksa ili drugi čimbenici mogu negativno utjecati na učinak indeksa.

Rizici povezani s potencijalnim sukobom interesa: Može doći do sukoba interesa u odnosu na relevantnog Izdavatelja ili osoba kojima je ponuda povjerena, a što može rezultirati donošenjem odluke na štetu Imatelja vrijednosnog papira.

Rizik likvidnosti: Postoji rizik da Vrijednosni papiri možda neće biti široko distribuirani te da ne postoji i da se neće razviti aktivno tržište Vrijednosnim papirima. Izdavatelj može, ali nije obavezan, kupovati Vrijednosne papire u bilo koje vrijeme i po bilo kojoj cijeni na otvorenom tržištu, putem natječajne ponude ili privatnog ugovora. Bilo koji Vrijednosni papiri koje je Izdavatelj kupio na ovaj način mogu se zadržati, preprodati ili poništiti. Otkup Vrijednosnih papira od strane Izdavatelja može negativno utjecati na likvidnost Vrijednosnih papira. Izdavatelj stoga ne može jamčiti da će Imatelj vrijednosnih papira moći prodati svoje Vrijednosne papire po adekvatnoj cijeni prije njihovog iskupa.
